Title: IMMUNOLOGICALLY ACTIVE PROTEINS FROM BORRELIA BURGDORFERI

## IN THE CLAIMS

Please amend the claims as follows:

1. (Currently Amended) A composition comprising: an amount of an immunologically active protein comprising

an amount of an immunologically active purified protein derived from *Borrelia*burgdorferi wherein the protein is characterized in that it

- a. elicits an immunological response from a mammal;
- b. has been prepared by expression in a bacterium other than *Borrelia* burgdorferi;
- c. is free of other proteins derived from Borrelia burgdorferi; and
- d. is a protein having SEQ ID NO:11, SEQ ID NO:15, at least 10 amino acids of SEQ ID NO:11, or at least 10 amino acids of SEQ ID NO:15, and

a pharmaceutically acceptable carrier, which amount wherein the amount of the protein is effective to immunize a susceptible mammal against infection caused by *Borrelia burgdorferi*.

- 2. (Canceled).
- 3. (Original) The composition of claim 1, which further comprises an effective amount of immune stimulating agent.
- 4. (Currently Amended) A composition comprising: an amount of an immunologically active protein comprising

an amount of an immunologically active purified protein derived from *Borrelia*burgdorferi wherein the protein is characterized in that it

- a. elicits an immunological response from a mammal;
- b. has been prepared by expression in a bacterium other than Borrelia burgdorferi;
- c. is free of other proteins derived from Borrelia burgdorferi; and

## AMENDMENT AND RESPONSE UNDER 37 CFR § 1.111

Serial Number: 10/762,665

Filing Date: January 22, 2004

Title: IMMUNOLOGICALLY ACTIVE PROTEINS FROM BORRELIA BURGDORFERI

d. is a protein having SEQ ID NO:11, SEQ ID NO:15, at least 10 amino acids of SEQ ID NO:11, or at least 10 amino acids of SEQ ID NO:15, and a pharmaceutically acceptable carrier,

which amount wherein the amount of the protein is effective to stimulate the formation of antibodies against *Borrelia burgdorferi* in a person.

5. (Original) The composition of claim 4, which further comprises an effective amount of immune stimulating agent.
